

VESA BASHA

Full Stack Developer - Prishtina, Kosova

☎ 045-927-842 ✉ vesa.basha1@gmail.com 🌐 github.com/vesab0

Education

University of Business and Technology

Bachelor of Science in Computer Science and Engineering

Present

Prishtina, Kosova

Experience

Asaasin AI

Full-Stack Developer

April 2025 – Present

Prishtina, Kosova

- Built ORA Intelligence: a medical platform with a RAG pipeline over 10+ years of patient records using OpenAI, pgvector, ML-powered X-ray analysis, niche medical integrations and more.
- Meta Ads dashboard with a Redis caching layer, pre-syncing historical data and scheduling background jobs to keep metrics fresh with no perceived load time.
- Worked on HireKosovo, a hiring platform with AI candidate matching, automated resume scoring, and live video transcription via Whisper.
- Owned full delivery across projects: schema design, FastAPI/Django/Node.js APIs, React/Next.js frontends, and deployment via Docker and GitHub Actions.
- Internal company infrastructure: a Slack error logging service adopted across all production apps, a self-hosted Linux server and worked on a Slack bot that pulls a given branch on PR notification, runs an AI code audit, and returns a report to the team.

JCoders Academy

Assistant Programming Instructor

February 2024 – September 2024

Prishtina, Kosova

- Assisted in teaching web development and Python to kids and high school students.

Projects

Insignia | *GitHub Webhooks, OpenAI, React, FastAPI*

2026

- Built a code review intelligence platform that scores every merged PR using AI, weighted by role and seniority.
- Supports custom rules per organization and tracks performance across objective, subjective, and consistency dimensions.

Twin Peaks Cinema | *React, .NET, Stripe, SendGrid, S3, Google Auth*

2026

- Full-stack cinema management platform with a hybrid movie recommendation engine built from scratch using KNN, collaborative and content-based filtering, RRF for multi-movie queries, and KMeans for search optimization.
- Automatically emails users when a new movie matches their taste profile via a standalone recommendation API.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL

Frameworks: FastAPI, Django, Next.js, Node.js, React, Tailwind CSS

Databases: PostgreSQL, Redis

Tools & Infra: Docker, Git, Linux, Vercel, Cursor, Claude Code

Leadership / Extracurricular

FLOSSK – Free Libre Open Source Software Kosovo

2026 – Present

Member

- Active member of Kosovo's open source software community.

Hackathons & Game Jams

Participant

- Regular participant in local and international hackathons and game jams throughout my entire programming journey.

High School Programming Team

Lead

- Led the school programming team, taught peers, and built the school's official website.
